

2007-2008 GRE Graduate Institution Summary Statistics Report

The Summary Statistics Report on the reverse side is based on GRE scores sent to your institution *by examinees who listed your institution as a prospective graduate institution* between July 2007 and June 2008. The first page of the report is an overall summary for your institution. In addition, if five or more students listed a specific department, a separate report is provided for that department. Because examinees were limited to designating departments as they were listed in the *GRE 2007-08 Information and Registration Bulletin*, the names of some graduate school departments may not match these designations.

Summary Statistics Reports can be used to make comparisons with other GRE score interpretive information, such as the table shown below, or with Tables 1 and 2 in the *GRE 2008-09 Guide to the Use of Scores*, which is located on the GRE website at www.ets.org/gre/edupubs. You may wish to develop similar summary statistics for the group of applicants to whom you offered admission and those who ultimately enrolled.

We hope you will find these summary statistics useful. If you have any questions or suggestions for improvement, please contact us at 1-609-771-7091 or CodeControl@ets.org.
