

GRE State Means
2005-2008 Testing Years
(State defined by location of attending institution)

Disclaimer about data sorted by Attending Institution:

Examinees are not required to identify the institution they are attending. As a consequence, only about 66% of examinees in 2007-08, 67% in 2006-07, and 60% in 2005-06 have identified an undergraduate institution, and the data from these self-selected examinees is self-reported. Furthermore, some of these examinees have been out of school for several years. Even more importantly, the GRE General Test has not been designed to measure state level education outcomes. For all of these reasons, caution should be exercised in seeing these results as an accurate reflection on the current undergraduate curriculum.

State	Testing Year	# Test Takers	Quantitative		Verbal		Writing
