

Interpreting Your *Praxis*™ Examinee Score Report

Your score report contains important information about your *Praxis*™ test score. To help you use this information effectively, view this sample score report.

BACKGROUND INFORMATION/ EDUCATIONAL INFORMATION

These sections display the information you entered during registration. The candidate ID number is a system-generated number that is assigned at registration.

SCORE RECIPIENT(S) REQUESTED

This section indicates all score recipients you selected during registration. In order for your score to be sent to a state teacher credentialing agency, college or university, the recipient must be selected during the registration process. Many states are “automatic score recipients.” If you test in an automatic score recipient state, your scores will automatically go to the teacher credentialing agency in that state. If the state you test in is different from the state to which you will apply for certification, or if the state in which you test is not an automatic score recipient, you must list the state as a score recipient in order for a score report to be sent. Please check page 14 of the *Praxis Information Bulletin* (available at www.ets.org/praxis) to find out if you are testing in an automatic score recipient state. If you would like your scores to be sent to an agency NOT listed here, you may order additional score reports by visiting www.ets.org/praxis.

** The range of scores earned by the middle 50% of a group of examinees of appropriate education level (see Interpret your Scores section in this website) taking this test during the most recent three academic years. N/C means that this range was not computed because the test was taken by fewer than 30 examinees within the most recent three academic years. N/A indicates that this test section was not taken and, therefore, the information is not applicable.

Examinee Score Report

CURRENT TEST DATE:

This section lists all the tests you took on the test day indicated.

- 1 **Test Code:** Is the code of a test for which the score is being reported.
- 2 **Test Name:** Is the title of a test for which the score is being reported.
- 3 **Your Score:** Lists the score you received on the test.
- 4 **Possible Score Range:** Lists the lowest to highest score possible on any version of that test.
- 5 **Average Performance Range:** Is the range of scores earned by the middle 50% of a group of examinees during the previous three academic years.
- 6 **Score Recipient Code(s) from Current Administration:** Each column under this section lists the recipient code indicated in the recipient section, as well as whether the score recipient received the score. "Y" means the score recipient received the score, and "N" means the institution or state did not receive the score. This is important to note for states, since each state has different requirements. If a state did not receive the score, it could mean that the state is not eligible to receive those test scores.

HIGHEST SCORE AS OF:

This section displays the highest score of each test you have taken over the past 10 years. If a test was taken multiple times, it would appear with only the highest score received.

Examinee Score Report

DETAILED INFORMATION FOR:

This section lists the topics covered on the test along with the raw points earned and raw points available for the version of the test taken on that day. Raw points are the sum of the correct answers in each content category. The sum of raw points is then converted to a scaled score by use of a conversion table, which includes a statistically determined adjustment for difficulty. Note: If an area of raw points earned is lower than the other topic sections, it may indicate an area for which you may need to study or prepare.

Average Performance Range: Is the range of scores earned by the middle 50% of a group of examinees who took the same version of the test given on that day.

DETAILED INFORMATION FOR: 07/26/2008 TEST DATE

| TEST CATEGORY* | Raw Points Earned | Raw Points Available | Average Performance Range ** |
|--|----------------------|----------------------|----------------------------------|
| ELEMENTARY EDUCATION: CONTENT KNOWLEDGE I. READING/LANGUAGE ARTS II. MATHEMATICS III. SOCIAL STUDIES IV. SCIENCE | 27 23 20 24 | 30 30 30 30 | 18-24 25-28 18-25 17-24 |

* Category-level information indicates the number of test questions answered correctly for relatively small sub-sets of the questions. Because they are based on the full set of questions, category scores are less reliable than the official scaled scores, which are based on the full set of questions. Furthermore, the question in a category may vary in difficulty from one test to another. Therefore, the category scores of individuals who have taken different forms of the test are not necessarily comparable. For those reasons, category scores should not be considered a precise reflection of a candidate's level of knowledge in that category and ETS recommends that category information not be used to inform any decisions affecting candidates without careful consideration of such inherent lack of precision.

** The range of scores earned by the middle 50% of a group of examinees who took this form of the test at the most recent national administration or other comparable time period. N/C means that this range was not computed because fewer than 30 examinees took this form of the test or because there were fewer than 8 questions in the category or, for a constructed-response module, fewer than 8 points to be awarded by the raters. N/A indicates that this test section was not taken and, therefore, the information is not applicable.
