Note: Score users should use special care in evaluating test takers who received a Quantitative Reasoning score at the top end of the prior 200-800 score scale. Now, with the current 130-170 score scale, we can provide more differentiation for higher ability test takers. However, test takers who took the prior test and received an 800 on the Quantitative Reasoning measure, received the highest score possible that they were able to earn on the measure. Therefore, this information should be considered when making admissions decisions.
