Contextual Information

This step allows you to provide a picture of your class that will enable the reader to better understand your instruction and decision-making skills.

Overview

Many factors can affect teaching and learning; these could include the community, the district, and/or individual school/classroom/student factors.

The information you gather about your teaching and learning context and about your individual students will help provide perspective to the reader who will be scoring your submissions.

This part of your submission will not be scored, but the information you include should have implications regarding your instructional choices.

Your response must be limited to **1,500 characters** (approximately one-half typed page). No artifacts can be attached to the Contextual Information textbox.

- a. Describe your classroom. Include the grade level, content area, subject matter, and number of students. Provide relevant information about any of your students with special needs.
- b. Describe any physical, social, behavioral, or developmental factors that may impact the instruction that occurs in your classroom. Mention any linguistic, cultural, or health considerations that may also impact teaching and learning in your classroom.
- c. Describe any factors related to the school and surrounding community that may impact the teaching and learning that occurs in your classroom.

Type your response in the textbox below.

- b. How do the instructional strategies connect to the learning goal(s) to facilitate student learning?
- c. What informed your decisions to use individual, small-group, and/or whole-group instruction to facilitate student learning?

Type your response in the textbox below.

Textbox 3.1.3: Learning Activities**Guiding Prompts**

- a. What learning activities do you plan to implement in this lesson? Provide a rationale for your choices.
