## Robert (Bob) Moses Scholarship

This annually awarded national scholarship is designed to support the educational goals of a graduate student from an underrepresented group who is pursuing a master's or doctoral degree in mathematics education or a STEM discipline. The individual should also have a commitment to civic engagement.

The scholarship is named in honor of the late Bob Moses, a pioneering civil rights leader and educator who founded The Algebra Project, a national U.S. mathematics literacy program aimed at helping low-income students and students of color achieve the mathematical skills in high school that are a prerequisite for success in college and beyond.
