

# CONSIDERING LAW SCHOOL? EXPLORE YOUR OPTIONS WITH THE *GRE*<sup>®</sup> GENERAL TEST.

The *GRE*<sup>®</sup> General Test gives you the power of options. It can be used to apply to J.D., various Master's and Certificate in Law programs, or a range of master's, MBA, specialized master's in business and doctoral programs. This means you only need to take one test to have many options available to you and testing is offered worldwide on a continuous basis.

Submitting *GRE*<sup>®</sup> test scores can actually be a strategic decision that helps round out your application package. Because the GRE General Test covers a range of skills across its three sections, your scores could help fill particular gaps in your experience. For example, if your background is quant heavy, solid Verbal Reasoning and Analytical Writing scores will complement those capabilities.
