GRE® scores are confidential and should not be released by the recipient without the explicit permission of the test taker.

The GRE Guide to the Use of Scores contains guidelines describing both the appropriate uses of GRE scores as well as information about GRE test content, scoring, and statistical information.

Beginning in September 2023, the subscores on the Physics and Psychology Tests will be reported as percent correct scores (i.e., the percentage of questions in a subscore area answered correctly). Subscores earned after September 2023 should not be compared with scaled subscores earned prior to September 2023.

GRE score users who have questions about score interpretation are advised to contact the GRE Program at gretests@ets.org. For more information about GRE tests and services, visit www.ets.org/gre.
