

GRE® General Test Means by State: 2015-16, 2016-17, and 2017-18
(State defined by location of attending institution)

Disclaimer about Data Sorted by Attending Institution: Test takers are not required to identify the institution they are attending. As a consequence, among those who tested in the U.S., only about 57% of test takers in 2015-16, 45% in 2016-17, and 44% in 2017-18 have identified an undergraduate institution, and the data from these self-selected test takers is self-reported. Furthermore, some of these test takers have been out of school for several years. Even more importantly, the GRE® General Test has not been designed to measure state-level education outcomes. For all of these reasons, caution should be exercised in seeing these results as an accurate reflection on the current undergraduate curriculum. (Verbal Reasoning = VR, Quantitative Reasoning = QR and Analytical Writing = AW)
