PPAT® Assessment

Association for Advancing Quality in Educator Preparation (AAQEP) Expectations Framework Alignment with ETS PPAT® Assessment Tasks
Association for Advancing Quality in Educator Preparation (AAQEP) Expectations Framework Alignment with ETS PPAT® Assessment Tasks

The PPAT® assessment evaluates teacher candidates on their ability to impact student learning by demonstrating that they have the basic pedagogical content knowledge and skills application for the classroom to begin teaching. The test most reflects AAQEP Expectations Framework Standards 1 and 2.

**Standard 1 Candidate/Completer Performance:** Program completers perform as professional educators with the capacity to support success for all learners.

**Standard 2 Completer Professional Competence and Growth:** Program completers adapt to working in a variety of contexts and grow as professionals.

While candidate results on an assessment such as the PPAT assessment may well inform an educator preparation program’s continuous improvement that is reflected in Standards 3 and 4, this alignment document focuses on candidates and, hence, on Standards 1 and 2. For purposes of this alignment, we have indicated the facets of Standards 1 and 2 that pertain to a particular PPAT assessment task guiding prompt.

This alignment to the AAQEP standards allows programs going through the accreditation process to easily identify where the PPAT assessment aligns.
### PPAT® Assessment Task 1: Knowledge of Students and the Learning Environment

| **Step 1**<br>Factors, Resources, and Protocols<br>Candidates' ability to identify and reflect on a variety of factors and resources that can be used to communicate and cultivate partnerships with students and the community. | Textbox 1.1.1: Understanding the Contextual Factors Influencing Instruction and Student Learning | a. Identify your chosen community factor. Based on your chosen community factor, identify and describe one possible instructional strategy and one learning activity that you could use in your classroom to further student learning. Provide a rationale that explains how the identified strategy and activity connect to the chosen factor.  

b. Identify your chosen school/district factor. Based on your chosen school/district factor, identify and describe one possible instructional strategy and one learning activity that you could use in your classroom to further student learning. Provide a rationale that explains how the identified strategy and activity connect to the chosen factor. | Standard 1  
• Learners, learning theory including social, emotional, and academic dimensions, and application of learning theory  
• Culturally responsive practice, including intersectionality of race, ethnicity, class, gender identity and expression, sexual identity, and the impact of language acquisition and literacy development on learning  
• Creation and development of positive learning and work environments  

Standard 2  
• Understand and engage local school and cultural communities, and communicate and foster relationships with families/guardians/caregivers in a variety of communities  
• Create productive learning environments, and use strategies to develop productive learning environments in a variety of school contexts  
• Engage in culturally responsive educational practices with diverse learners and do so in diverse cultural and socioeconomic community contexts  
• Create productive learning environments, and use strategies to develop productive learning environments in a variety of school contexts |
| **Step 1 (continued)**<br>Textbox 1.1.2: Available Resources to Enhance Student Learning | | a. Select two resources from the completed Instructional and Support Resources Chart and explain how you would use each in your classroom to support student learning.  

b. Select a particular characteristic that you listed under Knowledge of Individual Students in the Contextual Factors Chart. Based on this selected characteristic, explain how a resource from the Instructional and Support Resources Chart, different from the two discussed in the | Standard 1  
• Learners, learning theory including social, emotional, and academic dimensions, and application of learning theory  
• Culturally responsive practice, including intersectionality of race, ethnicity, class, gender identity and expression, sexual identity, and the impact of language acquisition and literacy development on learning  
• Creation and development of positive learning and work environments
